Level 1 Risk and Safety Management Plan (RSMP)
Technical Standards and Safety Act
Propane Storage and Handling Regulation

This Level 1 RSMP applies to:

- a facility with a total propane storage capacity of 5,000 USWG or less; or
- a facility with a fixed propane storage capacity of exactly 5,000 USWG and no more than 500 USWG of portable propane storage capacity on site.

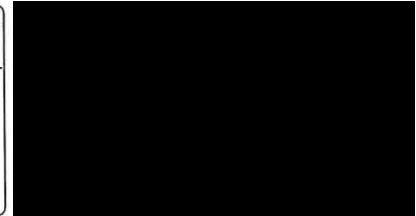

Failure to fully complete this form may result in rejection.
Making a false statement may result in a fine or prosecution under the *Technical Standards and Safety Act*

Licence Number 000076642586

Check applicable type of propane operations:

Cylinder Motor Fill Filling Plant Card/Keylock

Submit along with this completed application a Facility Site Plan and a Map of the Surrounding Area.

SECTION A: GENERAL INFORMATION

The Undersigned applies to TSSA for a review for an RSMP under Ontario's *Technical Standards and Safety Act*, Propane Storage and Handling Regulation.

Company Name Edward Fuels Limited Ontario Corporation No., if applicable _____

Operator Name (if different from above) Solo Petro

Telephone No. 519-524-8386 Fax No. 519-524-8388 E-mail stephen.gover@edwardfuels.on.ca

Street No. 263 Street Name / 911 Number / Address, if applicable Huron Road

Town / City or Township / County Goderich Province Ontario Postal Code N7A 2Z8

Mailing address if different from above.

Street No. _____ Street Name / 911 Number / Address, if applicable _____

Town / City or Township / County _____ Province _____ Postal Code _____

Information on Container Refill Centre or Filling Plant

Location of facility.

Street No. 397 Street Name / 911 Number / Address, if applicable Bayfield Road Nearest Major Intersection Bayfield Rd. / Suncoast Drive

Town / City or Township / County Goderich Province Ontario Postal Code N7A 4E7

Name of Licence Holder Edward Fuels Limited

Name of a Senior Management person as defined in the regulation holding the Record of Training (ROT) Robert Jeffrey ROT type PPO 1

Municipality (or municipalities if the facility or its hazard distance touches multiple borders) Goderich

Hours of operation.

This document is valid until the next licence renewal date. You are required by law to notify TSSA of any change of information.

SECTION B: EMERGENCY AND PREPAREDNESS RESPONSE PLAN

The licence holder will complete Section B in consultation with the local Fire Services.

Description of the maximum volume, types and storage location of other hazardous materials on site, if any.

3 25,000 Litre underground gasoline storage tanks.....62 feet south of propane dispenser

1 25,000 Litre diesel underground storage tank.....62 feet south of propane dispenser

Description of fire and emergency equipment indicated on facility site map.

Fire extinguishers at propane tank, gasoline pump island and in office entrance.

List of fire protection controls (e.g., fire detection systems, fire notification systems, alarm systems, automatic shut off devices, fusible links, etc.) and describe their function, use and operation.

"Dead man" shut-off switch on north, outside, wall of office. Approximately 15 feet south of propane tank. Push switch to shut down propane pump.

Fusible link, on chain from propane tank pump cabinet door, to ISC valve. In case of fire, fusible link comes apart and ISC valve closes.

Maintenance and testing schedule for fire protection controls and devices.

"Dead man" switch tested monthly.

Door to pump cabinet is closed daily. When closing door ISC is seen to close.

Fire extinguishers are checked on a regular basis by

SECTION B: EMERGENCY AND PREPAREDNESS RESPONSE PLAN (cont'd)
 The licence holder will complete Section B in consultation with the local Fire Services.
 5. Emergency Response Communications Plan

Warnings and Actions

Describe who gives warnings to whom, and how and when the warning will be given (including public notification as appropriate).
 Staff on site will call 911 immediately when safely away from the danger area notify the site manager and retail coordinator. They in turn will notify the executives of Edward Fuels and service provider Sparlings Propane. Edward Fuels or Sparlings will coordinate with the proper authorities and media outlets for public notification.

Describe what action is to be taken and by whom when a warning is issued (including details of a meeting place in a safe identified area and activating the evacuation plan, if necessary).
 Staff are trained that in an emergency situation they are to call 911 and evacuate to the parking lot of the retail outlet known as Dollorama which is out of the danger area. From there they are to call the rest of the key contacts. All reasonable actions will be taken to notify the public if necessary

Communication with Emergency Response Authorities

Describe when and how the licence holder will give early warning to emergency response authorities (including a process to ensure that a call is placed to 911).
 Site will contact key facility contact. At that time follow up to ensure 911 call will take place. If none placed key contact will place. Training to on site staff will state that calling 911 is priority but personal safety is paramount. Call may be placed from site or upon arrival at safe location.

Describe provisions for fire department entry when there are no operations or staffing at the propane site.
 Tank is open and unfenced no keys necessary to enter facility. Site contact less than 10 min away if further access is required

Describe how the licence holder will ensure continual flow of updated information to authorities.
 License holder will contact all relevant contacts. License holder will remain on site or within the vicinity until emergency has passed.

How long will it take the facility liaison person to respond to the site.
 less than 10 min

Declaration: I am aware that it is an offence to give false information in this document and I hereby declare that the information I have given here is true and complete.

Propane Storage and Handling Regulation

SECTION B: EMERGENCY AND PREPAREDNESS RESPONSE PLAN (cont'd)

The licence holder will complete Section B in consultation with the local Fire Services.

6. Building and Site Security and Procedures

	Yes	No
1. Does the propane location have controlled access to limit unnecessary risk and entry (lock out procedures)?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2. Is there adequate night lighting at the site?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Are procedures in place that ensure access routes, aisles, storage area, filling areas and the grounds are kept clear from unwanted materials?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Are there procedures that capture and record the daily inspection of hoses and inspection requirements for filling systems and mechanical devices used in the transfer of propane?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Does the facility have procedures that include a process to isolate and purge any overfilled propane cylinders?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Are weighing systems validated for accuracy?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Are storage areas clearly marked with the vessels' capacity status (i.e., filled, empty, purged and other hazardous materials)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Are quality assurance procedures in place to ensure that all valves are closed after the propane cylinders are filled?(e.g., QCC valves)	<input checked="" type="checkbox"/>	<input type="checkbox"/>
9. Is the schedule of maintenance and testing activities retained on site?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

7. Water Supply

The propane licence holder should work with the local fire department to determine water supply capabilities that are available based on the propane facility's location.

	Yes	No
1. Is a pressurized water system available at the propane facility site?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Can the municipal fire department pump 375 GPM (1420 LPM) of water at this location?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. What is the unobstructed distance to the closest water supply that could be used for firefighting activities? (distance in metres only)	55m	_____
4. What is the unobstructed distance to the closest approved water supply with year round access if there are no hydrants? (distance in metres only)	NA	_____

Declaration: I am aware that it is an offence to give false information in this document and I hereby declare that the information I have given here is true and complete.

SECTION C: SUBMISSIONS
 Applicant must include a Facility Site Plan and Map of Surrounding Area

Facility Site Plan.

The licence holder will submit a copy of the original facility site plan updated with the following information:

1. The storage location of fixed, portable, and mobile vessels.
2. The maximum volume, types and storage location of hazardous materials.
3. Location of permanent structures on site.
4. Access and egress points and location of barriers.
5. Location of fire and emergency equipment (e.g., sprinkler systems, extinguishers, suppression systems) on site and location of fire hydrant or water supply where available.
6. Location of emergency shut off/shut down switches/valves.

Map of Surrounding Area.

The licence holder will submit a scaled aerial map of the surrounding area showing the following information:

7. The capacity and placement of the single largest propane storage vessel, including its setback from the front, rear and side property lines.
8. GPS co-ordinates of the single largest vessel.
9. Visual indication of the single largest fixed vessel and a circle made using the distance in Table 1 as the radius from the single largest fixed vessel.
10. Clear indication of the municipality or municipalities present within the circle.
11. Visual indication of property line information.
12. The location and name of roads within or abutting the site.
13. Key note to the drawing indicating the facility's municipal address, municipal lot number(s) and concession lines as applicable, and the date the map was prepared.
14. Address and contact information for each municipality (municipal clerk or secretary-treasurers of planning board). (Refer to page 5.)
15. Complete "Required Mapping Information from Updated Site Plan" in table below .

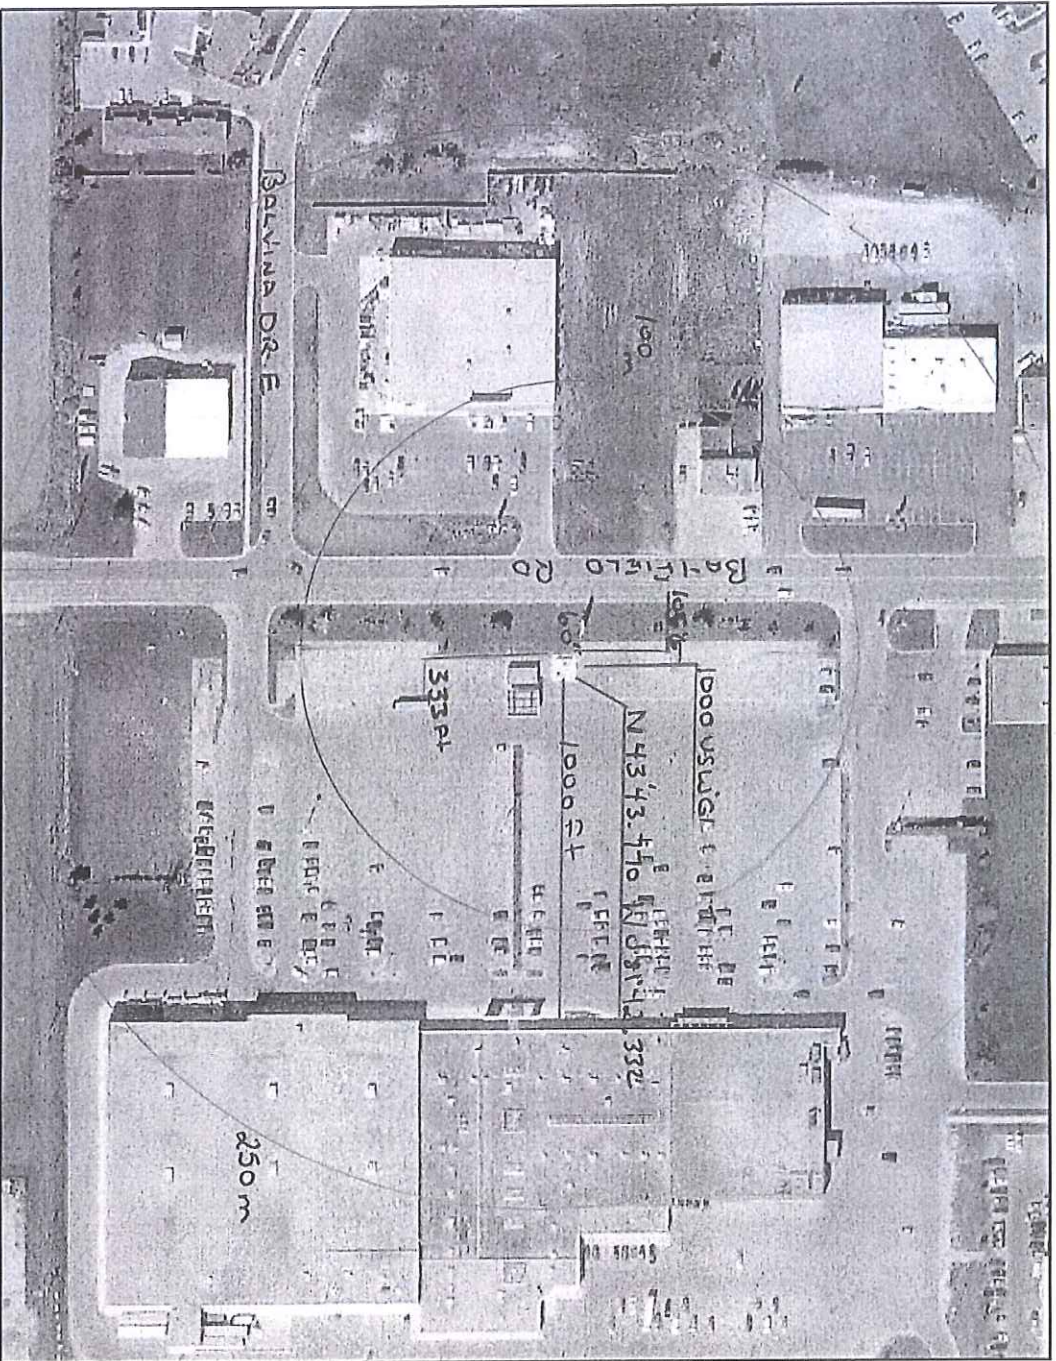

Required Mapping Information from Updated Site Plan

Date Map Prepared (dd-mm-yyyy)	Capacity of single largest propane storage vessel (USWG)
30-11-2011	1000
Tank setback coordinates. Indicate placement on the map.	
Front: 1000 ft <u>305 m</u>	Right side property line: 106 ft <u>32.31 m</u>
Rear: 60 ft <u>18 m</u>	Left side property line: 333 ft <u>101 m</u>
GPS coordinates of single largest vessel: <u>N43°43.770 W081°42.332</u>

Level 1 Risk and Safety Management Plan (RSMP)
Technical Standards and Safety Act
Propane Storage and Handling Regulation

SECTION C: SUBMISSIONS (cont'd)
Applicant must include a Facility Site Plan and Map of Surrounding Area

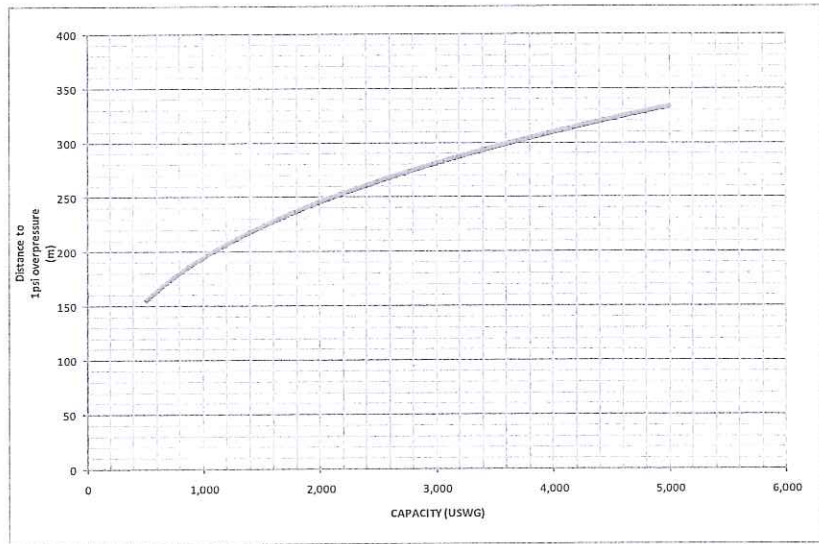

Table 1: Distance Table

Water Capacity (litres)	Nominal Water Capacity (USWG)	Distance to 1 psi overpressure (m)
1,890	500	155
3,780	1,000	195
4,920	1,300	213
6,620	1,750	235
7,130	1,885	241
7,560	2,000	246
18,900	5,000	333

Formula: $D = 16.94 \times (1.524 \times C)^{1/3}$
 D = Distance to overpressure of 1 psi (meters)
 C = Tank Total Capacity in USWG

Parameters: Density of Propane is 0.5033 kg per litre @ 15 C
 Assume all vessels are 80% full
 1 gallon [US, liquid] = 0.003785411784 cubic meter
 1 cubic metre = 264.17 USWG

2012 Application for Renewal of
Level 1 Propane Licence
Technical Standards and Safety Act
Propane Storage and Handling Regulation

SUBMISSIONS (cont'd)

Applicant must include a Facility Site Plan and Map of Surrounding Area

As an accompaniment to the Map of Surrounding Area, provide the following information about buildings and features present within the circle in Table 2.

Table 2: Buildings and Features

Buildings and Features Present within the Circle on the Map of the Surrounding Area AND Name and Address of Closest Building or Feature	* Number of Buildings and Features (mark with an "X")				Distance from Tank to Closest Building or Feature
	0	1	2-10	11+	
Industrial buildings or parks or golf courses Name: <u>Local Industrial Park (Multiple buildings) occupied + unoccupied</u> Address: _____ City: _____ Province _____ Postal Code _____					<u>200</u> m
Residential building units specifically permanent single family dwellings, condominiums, and apartments. [Redacted]					<u>300</u> m
Commercial building units specifically retail, restaurants, entertainment, theatres, and sporting complexes. Name: <u>TSC STORE</u> Address: <u>400 Bayfield Rd</u> City: <u>Goderich</u> Province <u>ONT</u> Postal Code <u>N7A4E7</u>					<u>100</u> m
Commercial building units - continuous occupancy specifically hotels, campgrounds, and resorts. Name: _____ Address: _____ City: _____ Province _____ Postal Code _____					_____ m
Sensitive institutions specifically hospitals, schools and day cares, nursing and retirement homes, mental health institutions, and prisons. Name: <u>HEUBNER VETERINARY CLINIC</u> Address: <u>376 Bayfield Rd</u> City: <u>Goderich</u> Province <u>ONT</u> Postal Code <u>N7A4E7</u>					<u>100</u> m
Emergency responders specifically fire stations, ambulance stations, and police stations. Name: <u>Goderich Fire DEPT.</u> Address: <u>248 Suncoast DR E</u> City: <u>Goderich</u> Province <u>ONT</u> Postal Code <u>N7A4K4</u>					<u>700</u> m

* For multi-unit buildings, count each unit as "1".

You are required by law to notify TSSA of any change of information contained in the Risk and Safety Management Plan within 15 days.

Declaration: I am aware that it is an offence to give false information in this document and I hereby declare that the information I have given here is true and complete.
