SECTION A: GENERAL INFORMATION

The Undersigned applies to TSSA for a review for an RSMP under Ontario's Technical Standards and Safety Act, Propane Storage and Handling Regulation.

**A** Company Name: Kavco Sales Ltd. Ontario Corporation No., if applicable

Operator Name (if different from above): Mike Kavanagh

Telephone No: 905-851-3214    Fax No: 905-851-7450    E-mail: kavco@gmail.com

**B** Street No: 3850    Street Name / 911 Number / Address, if applicable: Highway #7

Town / City or Township / County: Woodbridge    Province: Ontario    Postal Code: L4L 9C3

Mailing address if different from above:

**C** Street No:    Street Name / 911 Number / Address, if applicable:

Town / City or Township / County:    Province:    Postal Code:

**D** Information on Container Refill Centre or Filling Plant

Location of facility

Street No: 3850    Street Name / 911 Number / Address, if applicable: Highway #7

Nearest Major Intersection: HWY 7 & HWY 400

Town / City or Township / County: City of Vaughan    Province: Ontario    Postal Code: L4L 9C3

Name of License Holder: Kavco Sales Ltd of a Canadian Tire

Name of a Senior Management person as defined in the regulation holding the Record of Training (ROT): Raffick Jr. Kasmalek    ROT type: 100-08

Municipality (or municipalities if the facility or its hazard distance touches multiple borders): City of Vaughan

Hours of operation: [Redacted]

This document is valid until the next licence renewal date. You are required by law to notify TSSA of any change of information.

Declaration: I am aware that it is an offence to give false information in this document and I hereby declare that the information I have given here is true and complete.

Propane Storage and Handling Regulation

**SECTION A: GENERAL INFORMATION (cont'd)**

Indicate the year the facility was established.  
1997

Indicate the year of any significant modifications, as defined in s.1, O.Reg 211/01, since establishment.  
None

Identify the psig rating and serial number for each fixed propane storage tank on site.

	PSIG	Serial Number
Tank 1:	250	SER19J80-66
Tank 2:	N/A	
Tank 3:	N/A	

Enter capacity of propane in USWG, fixed, portable, and mobile, and provide detailed inventory that includes the number of tank/vessel for each type (fixed, portable, and mobile) and the capacity of each tank/vessel, on a separate document.

Fixed: 2000 USWG      Portable: 420 USWG      Mobile: None

Declaration: I am aware that it is an offence to give false information in this document and I hereby declare that the information I have given here is true and complete.

 Propane Storage and Handling Regulation

**SECTION B: EMERGENCY AND PREPAREDNESS RESPONSE PLAN**

The licence holder will complete Section B in consultation with the local Fire Services.

Description of the maximum volume, types and storage location of other hazardous materials on site, if any.

- \*Bulk Oil Container Castrol 5W30 Oil 1100 L Max inside shop by Bay 1 and 2. \*Bulk Oil Container Castrol 5W20 oil 1100L Max inside shop by Bay 1 and 2.
- \*3 Cages of 20 lb Propane tanks (80 Tanks = 420 USWG) located by main door exit \*3 Oxygen Tanks chained by door in shop back equipment room
- \*4 Acetylene Tanks chained by door in shop back equipment room. \*1 Nitrogen tank in shop back equipment room
- \*Waste coolant tank outside shop compound 600 L Max \*Waste oil tank outside shop compound 5000L Max.

Description of fire and emergency equipment indicated on facility site map.

- 20lb Fire Extinguisher at Propane Station.
- 10Lb Fire Extinguishers by Bay 2, 4, 6, 12, 14, 15
- \*Water Hydrant 34m north of Propane Tank \*Water Hydrant 38m South East of Propane Tank \* Water Hydrant 45m North East of Propane Tank.
- Fire Hose Water Hook up(Truck hook up) up at Main Store exit doors Aprox. 50m from Propane Tank.

List of fire protection controls (e.g., fire detection systems, fire notification systems, alarm systems, automatic shut off devices, fusible links, etc.) and describe their function, use and operation.

1. Fuseable link on ISC valve-Isolation between tank and downstream Propane Dispenser
2. Pump Shut off switch at Prop. Station shuts off power to pump.
3. Electrical shut off switch at shop door entrance/exit by bay 15.
4. ISC valve interlock cable (interlocked with cabinet door) ISC valve closes when door to cabinet is closed.
5. Emergency Fire Pull Station located inside shop by entrance/exit door
6. Emergency Fire Pull station by Service C. entrance/exit Door.

Maintenance and testing schedule for fire protection controls and devices.

- Our JHSC inspects all fire extinguishers, fire hoses, emergency exit signs on a monthly basis.
- Premier conducts a yearly professional inspections and maintenance of all our fire extinguishers, fire hoses, emergency lights and the sprinkler system.
- Superior Propane also conducts a yearly inspection of the propane tank and does any maintenance and/or servicing required to insure its in safe working order.

**Level 1 Risk and Safety Management Plan (RSMP)**  
*Technical Standards and Safety Act*  
Propane Storage and Handling Regulation

**SECTION B: EMERGENCY AND PREPAREDNESS RESPONSE PLAN (cont'd)**

The licence holder will complete Section B in consultation with the local Fire Services.

5. Emergency Response Communications Plan

**Warnings and Actions**

Describe who gives warnings to whom, and how and when the warning will be given (including public notification as appropriate).  
The ROT person(s) on duty will contact emergency services by calling 911. Internal emergency code 99 through radio will be announce and evacuation alarm activated if necessary for Managers and first aiders to respond and evacuate staff and public as outlined in our "Propane Emergency Response Procedure" and "Emergency Evacuation Procedures"

All staff will meet at our emergency meeting point (South west Corner of parking lot by road sign) for head count.

Describe what action is to be taken and by whom when a warning is issued (including details of a meeting place in a safe identified area and activating the evacuation plan, if necessary).

Actions and warnings will be taken by an ROT person(s) on duty. The ROT person(s) will pull the most immediate fire pull station to announce the evacuation of the building. The propane facility is in a wide open area allowing people to self evacuate. All staff will meet at our emergency meeting point (South west Corner of parking lot by road sign) for head count. Emergency meeting point may change if propane plum is blown towards meeting point by the wind, if so the change will be announced via 2 way radio for all staff to be aware.

**Communication with Emergency Response Authorities**

Describe when and how the licence holder will give early warning to emergency response authorities (including a process to ensure that a call is placed to 911).

The moment the ROT person identifies any abnormal event /accident, he or she will immediately call 911, then announce a code 99 (Internal emergency code) this will activate appropriate emergency response actions, and duty manager with Ext. #300 will insure 911 has been called & coordinate the evacuation and assign meeting point according to wind direction (using the flags to determine the wind direction) Duty Manager with Ext.#301 will help coordinate and be alert for the emergency authorities to serve as the liaison, informing the situation. (All ROT personal is trained and authorized to call 911 in case of an emergency)

Describe provisions for fire department entry when there are no operations or staffing at the propane site.

The Propane tank is located in a wide open area in the store parking lot and is easily accessible by two entrances one from Windflower Gate Rd and another one by Nova Star Drive (Through Hw. # 7)

The Fire Dept. will not have issues accessing the parking lot. These Fire routes are identified on the attached site plans.

Describe how the licence holder will ensure continual flow of updated information to authorities.

In case of evacuation Duty Manager with Ext. #300 will command the evacuation process and the head count, Duty Manager with Ext. 301 will be the liaison informing and updating the Fire Chief on the situation, on the location of hazardous materials storage, location of emergency cut off switches, location of the fire equipment, hydrants etc. and any other information that may be required by the Fire Dept. or any other emergency authorities.

How long will it take the facility liaison person to respond to the site.

The 24 Hour contact key person (Auto Manager) lives 3 minutes away from the store, the Store Manager lives 14 minutes away from the store.

So approximately 5 to 15 minutes, after receiving the emergency call.

**Declaration: I am aware that it is an offence to give false information in this document and I hereby declare that the information I have given here is true and complete.**

**SECTION B: EMERGENCY AND PREPAREDNESS RESPONSE PLAN (cont'd)**

The licence holder will complete Section B in consultation with the local Fire Services.

**6. Building and Site Security and Procedures**

- |   | Yes                                 | No                       |
|---|-------------------------------------|--------------------------|
| 1. Does the propane location have controlled access to limit unnecessary risk and entry (lock out procedures)?  | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 2. Is there adequate night lighting at the site?  | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 3. Are procedures in place that ensure access routes, aisles, storage area, filling areas and the grounds are kept clear from unwanted materials?                                     | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 4. Are there procedures that capture and record the daily inspection of hoses and inspection requirements for filling systems and mechanical devices used in the transfer of propane? | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 5. Does the facility have procedures that include a process to isolate and purge any overfilled propane cylinders?  | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 6. Are weighing systems validated for accuracy?   | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 7. Are storage areas clearly marked with the vessels' capacity status (i.e., filled, empty, purged and other hazardous materials)?  | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 8. Are quality assurance procedures in place to ensure that all valves are closed after the propane cylinders are filled?(e.g., QCC valves)   | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 9. Is the schedule of maintenance and testing activities retained on site?  | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

**7. Water Supply**

The propane licence holder should work with the local fire department to determine water supply capabilities that are available based on the propane facility's location.

- |   | Yes                                 | No                       |
|---|-------------------------------------|--------------------------|
| 1. Is a pressurized water system available at the propane facility site?  | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 2. Can the municipal fire department pump 375 GPM (1420 LPM) of water at this location?   | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 3. What is the unobstructed distance to the closest water supply that could be used for firefighting activities? (distance in metres only)            |                                     | 34m                      |
| 4. What is the unobstructed distance to the closest approved water supply with year round access if there are no hydrants? ( distance in metres only) |                                     | N/A                      |

The licence holder will complete Section B in consultation with the local Fire Services.

8. Licence holder and local Fire Services Review

**To be completed by the Local Fire Services**

Has the local fire service had an opportunity to review the Emergency Response and Preparedness Plan?

Yes

No

If not, please explain (e.g., no fire services).

Fire services comments, if any:

**To be completed by the Licence Holder**

In response to the above comments, the following action(s) is required:

The licence holder will respond to the Local Fire Services comments by:

(dd-mm-yyyy)

**LOCAL FIRE SERVICES**

The undersigned has reviewed Section B of the Risk and Safety Management Plan Fire Services.

Print name	Signature	Date (dd-mm-yyyy)
Local Fire Services Name <u>Doug Best</u>		<u>27/06/16</u>

**Declaration: I am aware that it is an offence to give false information in this document and I hereby declare that the information I have given here is true and complete.**

**Level 1 Risk and Safety Management Plan (RSMP)**  
*Technical Standards and Safety Act*  
Propane Storage and Handling Regulation

**SECTION C: SUBMISSIONS**

Applicant must include a Facility Site Plan and Map of Surrounding Area

**Facility Site Plan.**

The licence holder will submit a copy of the original facility site plan updated with the following information:

1. The storage location of fixed, portable, and mobile vessels.
2. The maximum volume, types and storage location of hazardous materials.
3. Location of permanent structures on site.
4. Access and egress points and location of barriers.
5. Location of fire and emergency equipment (e.g., sprinkler systems, extinguishers, suppression systems) on site and location of fire hydrant or water supply where available.
6. Location of emergency shut off/shut down switches/valves.

**Map of Surrounding Area.**

The licence holder will submit a scaled aerial map of the surrounding area showing the following information:

7. The capacity and placement of the single largest propane storage vessel, including its setback from the front, rear and side property lines.
8. GPS co-ordinates of the single largest vessel.
9. Visual indication of the single largest fixed vessel and a circle made using the distance in Table 1 as the radius from the single largest fixed vessel.
10. Clear indication of the municipality or municipalities present within the circle.
11. Visual indication of property line information.
12. The location and name of roads within or abutting the site.
13. Key note to the drawing indicating the facility's municipal address, municipal lot number(s) and concession lines as applicable, and the date the map was prepared.
14. Address and contact information for each municipality (municipal clerk or secretary-treasurers of planning board). (Refer to page 5.)
15. Complete "Required Mapping Information from Updated Site Plan" in table below.

**Required Mapping Information from Updated Site Plan**

Date Map Prepared (dd-mm-yyyy) 23-06-2016	Capacity of single largest propane storage vessel (USWG) 2000 USWG
Tank setback coordinates. Indicate placement on the map.	
Front: 35 meters	Right side property line: 200 meters
Rear: 300 meters	Left side property line: 120 meters
GPS coordinates of single largest vessel:	43.7902, -79.5513

**Declaration: I am aware that it is an offence to give false information in this document and I hereby declare that the information I have given here is true and complete.**

**Level 1 Risk and Safety Management Plan (RSMP)**  
*Technical Standards and Safety Act*  
 Propane Storage and Handling Regulation

**SECTION C: SUBMISSIONS (cont'd)**  
 Applicant must include a Facility Site Plan and Map of Surrounding Area

**Table 1: Distance Table**

Water Capacity (litres)	Nominal Water Capacity (USWG)	Distance to 1 psi overpressure (m)
1,890	500	155
3,780	1,000	195
4,920	1,300	213
6,620	1,750	235
7,130	1,885	241
7,560	2,000	246
18,900	5,000	333

**Formula:**  $D = 16.94 \times (1.524 \times C)^{1/3}$   
 D = Distance to overpressure of 1 psi (meters)  
 C = Tank Total Capacity in USWG

**Parameters:** Density of Propane is 0.5033 kg per litre @ 15 C  
 Assume all vessels are 80% full  
 1 gallon [US, liquid] = 0.003785411784 cubic meter  
 1 cubic metre = 264.17 USWG

**Hazard Distance Chart (EPA-TNT model)**

**Declaration: I am aware that it is an offence to give false information in this document and I hereby declare that the information I have given here is true and complete.**

Propane Storage and Handling Regulation

**SECTION C: SUBMISSIONS (cont'd)**

Applicant must include a Facility Site Plan and Map of Surrounding Area

As an accompaniment to the Map of Surrounding Area, provide the following information about buildings and features present within the circle in Table 2.

**Table 2: Buildings and Features**

Buildings and Features Present within the Circle on the Map of the Surrounding Area AND Name and Address of Closest Building or Feature	* Number of Buildings and Features (mark with an "X")				Distance from Tank to Closest Building or Feature
	0	1	2-10	11+	
Industrial buildings or parks or golf courses Name: None Address: _____ City: _____ Province _____ Postal Code _____	x				N/A m
Residential building units specifically permanent single family dwellings, condominiums, and apartments. Name: None Address: _____ City: _____ Province _____ Postal Code _____	x				N/A m
Commercial building units specifically retail, restaurants, entertainment, theatres, and sporting complexes. Name: Mr. Greek Restaurant (See Attached List for Names of all Buildings (Company's) in the map circle. Address: 150 Windflower Gate City: Vaughan Province Ontario Postal Code L4L 9C3				x	100 m
Commercial building units – continuous occupancy specifically hotels, campgrounds, and resorts. Name: None Address: _____ City: _____ Province _____ Postal Code _____	x				N/A m
Sensitive institutions specifically hospitals, schools and day cares, nursing and retirement homes, mental health institutions, and prisons. Name: None Address: _____ City: _____ Province _____ Postal Code _____	x				N/A m
Emergency responders specifically fire stations, ambulance stations, and police stations. Name: None Address: _____ City: _____ Province _____ Postal Code _____	x				N/A m

\* For multi-unit buildings, count each unit as "1".
